<b>What should students be focusing on?</b>	<p>Students should secure their understanding by reviewing their learning. All students were given a revision guide free of charge. Revision materials can also be found on Teams, BBC Bitesize and using their knowledge organiser. There is a lot of content to learn and so students would benefit from creating revision resources, such as flash cards and mind maps, which they can use through the whole of their course.</p> <p>All units are of equal value however many students find paper 1 harder than paper 2. Students should concentrate on learning key terms so that they can access what each question is asking them and ensure that they can provide evidence for each idea. This can be a quote, example, or statistic.</p>
<b>What is the best way for parents to support students in this subject?</b>	<p>Parents can test their son/daughter's knowledge and understanding of key terms and ideas, especially in the run up to assessments. Parents should encourage their son/daughter to revisit topics previously learnt to keep their knowledge fresh.</p> <p>Parents can also talk and debate with their son/daughter about the issues which have come up in the various topics. This helps develop evaluation skills and supports students in being able to explain arguments clearly.</p>

<p><b>What websites and resources would be helpful?</b>  <b>What wider reading would be helpful?</b>  <b>Where can I get resources?</b></p>	<p>The most useful websites for revision are BBC Bitesize and senecalarning.com. Both sites provide information and explanation, as well as quick quizzes to test knowledge. The revision guide issued also has a code at the front that allows students access to a further revision resource.</p> <p>Resources can also be found on Teams.</p>
<p><b>Have previous students got any tips or advice for this subject?</b></p>	<ul style="list-style-type: none"> <li>• Give yourself plenty of time to revise for assessments and exams. Leaving it until the last minute means you do not do your best work.</li> <li>• Try to think about how ideas relate to each other. There are many times that quotes used in one topic can be used in others as well.</li> <li>• Revise by completing past questions. Doing this will help you know what you have remembered, as well as ensuring you know where there are gaps in your skills.</li> </ul>
